(Special from United Press.)

New York, Aug. 27—Walter L. Clark, tote broker, first indicted for allegedcomplicity in the theft of \$110.000 worth to bonds belonging to F. Angustus feluse and then re-indicted as a "second offender" was arraigned before ustice Mulqueen today and pleaded not guilty. His bond of \$20,000 was continued. Trenton, N. J., Aug. 27.—After a hearing before Assistant Attorney General Nelson B. Gaskill, he recommended that Acting Governor Frelinghuysen honor the requisition of Gov. Hughas for the return to New York State of Thomas Bedle, son of ex-Gov. Bedle, wanted on the charge of stealing diamonds and other jewelry from a Maiden Lane firm.

His defense here was that he pawned the gems to raise money to pay a pressing debt, and that he intended redeefning them. The Assistant Attorney General thought this had better be told in a court of law in New York.

A. D. S. Adams of Boston, indicted in the same casce, is still in the Tombs in default of a bond of \$25,000 but it is believed he will be released today.

To-morrow afternoon at Newfield the New Haven team will make their last appearance here but one, that on La-bor Day morning. As a preliminary to the league contest, the Bridgeport Brass Co. and American & British Co. team of the Industrial league will meet, this game to be called at 1:45.

Connie Mack, manager of the Phila-delphia Athletics, has made a formal complaint to President Johnson of the American League against the alleged foul tactics of Ty Cobb of the Detroits. Mack accuses Cobb of intentionally trying to spike Third Baseman Baker of the Athletics in Wednesday's game and declares that he can prove that Cobb has openly beasted that he will of the Athletics in Wednesday's game and declares that he can prove that Cobb has openly boasted that he will "get" several of the Philadelphia players. Cobb in reply says the spiking of Baker was an accident and that he has never purposely tried to infure any player. The rivalry between the Detroits and Athletics is at white heat just now, with plenty of ill feeling in both camps. Meanwhile the Boston Red Sox are still on the heels of these crack ball teams and are expected to extend both of them before the ownership of the pennant is finally determined. The real test will come when the Bostons begin an all important series in Detroit next Tuesday.

The race for the Eastern League pennant is the most sensational in the history of the organization. Roches-ter, Newark, Providence and Toronto are neck and nock. The Newarks have many followers in New York be-cause Iron Man McGinnity not only cause Iron Man McGinnity not only holds a controlling interest in the club, but is also the team's star pitcher. Catcher Blair, recently with the Highlanders, is also doing good work behind the bat, while Outfielder Meyeds, the property of the Giants, is another factor in the Newark's success. It is the prevailing opinion that in point of playing strength the Eastern is easily the best minor league in the country. Interesting Railroad Gossip-Harriman's

WEST ENDS AND CITY CHAMPIONSHIP

The Farmer is in receipt of a communication from Manager Ritchel of the West End Baseball club in which he states that his team will not make any effort to side track any of the local clubs who think they have a look in on the city championship, which title is now held by the West Ends. The South Ends have posted a forfeit to have the West Ends cover, while the St. Joseph's, Newfields, Orioles and the Yost teams dispute the right of the South Ends to play the West Ends, Manager Ritchel's suggestion is that these teams get together arrange for games and let the winner play the West Ends for the city championship. They have the opinion which is a good one, that they cannot slight any of the above teams who desire a series, unless they are put aside in games by one or the other. terday were operated in two sections, and although the passengers were sweltering with heat, every seat was filled. Vacation people, the railroad official said, must travel, no matter what the weather is. The increase in population and the marked development of the favor in which New England is held as a summer resort is supposed to account largely for the constant increase in the summer traffic.

New York, Aug. 27.—Beginning at noon today New York will see 34 hours of dare-devil speeding ending Saturday night with the finish of a 24 hour auto race as a climax.

Brighton Beach took the place of Mecca for the fans. The opening event was a one hour race between motorcycles, one of the first preliminaries for small machines. This was followed by a six hour race for small powered automobiles. Following this will come a triangle match race between the Hotchkiss Cannon Ball, the Flat Cyclone and Walter Christi's steam Locomotive. 'Records are expected to fall when these three cars meet as the Cannon Ball, in practice, has been negotiating miles in less than 50 seconds.

The proposed battle between Tommy to the men put up their hands.

In addition to his ten round bout with Al Kauffman on September 9, Jack Johnson has practically agreed to meet Jim Barry of Chicago in a similar contest at Vernon, near Los Angeles, on September 21. Articles of agreement already signed by Barry and Promoter McCarey have been forwarded to Johnson. They name Charles Eyton as the referee and stipulate that Johnson will receive \$5,000 or 50 per cent of the gross receipts, which ever proves the larger amount. Barry will get \$1,000 for his end, and the bout will be billed as a fight for the heavy weight championship. HOW IT IS DONE

One day a man came into our store and said that he has never been to see an eyesight specialist before. He has always selected his own glasses and thought he could do it as well as anyone. He has been reading our talks, however. He wanted to see how it was done. We made a careful examination of his eyes. The vision of one eye was six-tentil, the other six-eights. With correctly fitted glasses we placed his vision at a normal standard. Of course one eye took a stronger glass than the other. He bought the glasses on the spot. He said: "I came here fully prejudiced against buying glasses of an eyesight specialist. I am gojudiced against buying glasses of an eyesight specialist. I am going away a convert to scientific work. I shall never again depend upon my own indgment in the selection of glasses." Reader: If you also feel that prejudice, let us show you the difference between picking out glasses and having your eyes fitted by scientific principles. We do not charge you for consultation.
